### And What Have You

By BOB CRAIG

One of these days we may have to start a special column just to handle some of Andrews Publisher James Roberts' editorials. But until that time we will just continue to share space with him every once in a while. He had another one this past week that is worth repeating.

Just wish there was some way to reach those people in Washington. They don't seem to ever get the message from us folks out here in the boondocks.

Roberts' thoughts on the \$50.00 rebate scheme follow:

Dear President Carter:

We tried from 1 until 3 p.m. yesterday to dial your number at the White House but your service isn't any better than ours—we could never get thru!

The people-to-president open line is a great idea but seems like you're gonna have to hire another hand or two to handle our calls.

Anyway, we had a suggestion to make.

We were going to propose a simple method of handling the \$50.00 rebate planned by you and Congress for all Americans earning under \$30,000 a year.

Purpose of the rebate is supposedly to stimulate the economy. Personally, we feel it's so stimulated now, we can't keep up with our bills.

Since the proposed rebate will cost Uncle Sam in the neighborhood of \$13 billion, an amount that you don't have and will have to go into the capital market and borrow, we have a better suggestion.

Experts say we have just enough money in the kitty to run Social Security for another eight months. Instead of sending all of us \$50.00 in May, you keep the \$50.00 you don't have, and write one check payable to the Social Security fund for the \$13 billion.

Then mail all of those people now receiving Social Security an extra \$50.00 in May. It just might be enough to make a down payment for them on their gas bills.

At least in that manner, the nation would only have one hot check floating around the country instead of 20 million.

If we poured an additional \$13 billion into Social Security, those retired people would spend it faster than anyone else and consequently stimulate the economy as proposed.

And it just might be that if Social Security received a one-shot \$13 billion, it would not be necessary to go up again on Social Security rates next January.

Seems rather foolish to us to borrow money in order to send all of us \$50.00 when come January you'll take an additional \$200 away from all of us.

When a pump needs priming, it doesn't matter which end is primed—the working end or the retired end—one will spend it as fast as the other. And the retirees certainly need it more than others especially after the coldest winter on record.

It's just a suggestion and probably far too simple for it to appeal to Congress. But \$50 placed in Social Security for immediate distribution makes more sense than \$50 in the hands of those better able to cope with rising prices and inflation than those on fixed income.

But keep up the open ear and maybe one of these days we'll get an open line and really tell you what most Texans think of the federal government.

## Central Baptist Church Revival Opens Sunday

The Rev. Don W. Jeffreys, pastor of First Baptist Church, Rochester, will be the guest preacher-evangelist for the March 20-27 revival at Central Baptist Church. Services will be held at 10 a.m. and 7 p.m.

The Rochester church music-education director will be in charge of music.

The Rev. Bud Adkins, pastor of Central Baptist, is in Rochester this week with Richard Young, a Hardin-Simmons University student who is the youth director here, conducting the Rochester revival in cooperation with the Good News Texas revivals being held in Southern Baptist Churches.

The Rev. Jeffreys received his B.A. degree from Hardin-Simmons University in 1974. He was ordained to the ministry in 1970.

He is married to the former Debrah Lynn Dickson and they have one son Alan, 4. He has served churches in Abilene, Albany, and Pleasant Grove Baptist Church in Anson. He has also been an evangelist in Texas, Mississippi, New Mexico and Indiana.

Mrs. Speck said that some 60 to 80 donors are needed at this time to get the donor file current.

Using the theme "Blood donation is a gift of life," donors are urged to respond to help serve patients in the Hamlin area.

Those who can give blood are to report to the hospital between the hours of 10 a.m. and 2 p.m. April 6. Personnel from the Meek bank will be here at this time.

Mrs. Speck pointed out that some blood would be kept in Hamlin but if other types are needed an exchange could be made with the Meek bank. With this rotation system, a patient can be supplied with the needed type.

Any questions concerning the project should be directed to Lois Ellen Reynolds between 4 and 5 p.m. Monday, Tuesday or Wednesday of each week.

## Apartment Applications Being Taken

The Hamlin Housing Authority is now taking applications for the 14 apartment units presently under construction. The applications for either the one or two bedroom apartments requires a \$25.00 deposit to hold an apartment until they are ready to be moved into.

In a meeting Monday evening, the Authority met with the architect, builder and representative of the Farmers Home Administration to discuss the completion date and to establish tentative policy for the apartments.

The tentative completion date for the apartments has been set for April 15 with an open house planned for about May 1.

Rents for the apartments will range from \$101 to \$193 per month, depending upon income. The maximum income allowed for a single person under 62 with no dependents is \$15,600 a year. The income limits are higher for those with dependents or over 62. The monthly rents vary with the incomes and the dependents.

# School Accepts New Buildings Tuesday

The Trustees of the Hamlin Independent School District signed a certificate of substantial completion here Tuesday on the new auditorium and middle school and will begin occupying the buildings later this week.

Plans Tuesday called for moving students into the middle school Friday afternoon and starting classes in the building Monday. The students will be assigned their homerooms, make a tour of the building and then be dismissed Friday afternoon.

In signing the substantial completion certificate with the contractor, Herman Bennett Construction Company of Brownwood, the district accepts the building for use while the contractor still has 30 days to finish correcting any deficiencies in the project.

The board recessed from their regular meeting Monday evening and convened at 1 p.m. Tuesday to conduct an inspection of the buildings with a representative of the construction firm and with their architects, Rihard and Huckabee of Andrews.

Final approval of the buildings is expected within the next 30 days.

In their meeting Monday evening, the board named a budget committee, approved the textbook committee's recommendations for the coming year, discussed the school's insurance program, set building use fees and hired teachers and other school personnel.

James Rodgers, Raymond Scifres and Jackie Williams were named to the budget committee to work on the budget for the coming year.

The board voted to add the new buildings to present insurance policies that expire in 1978 and voted to increase the building values by 11 percent on the older buildings.

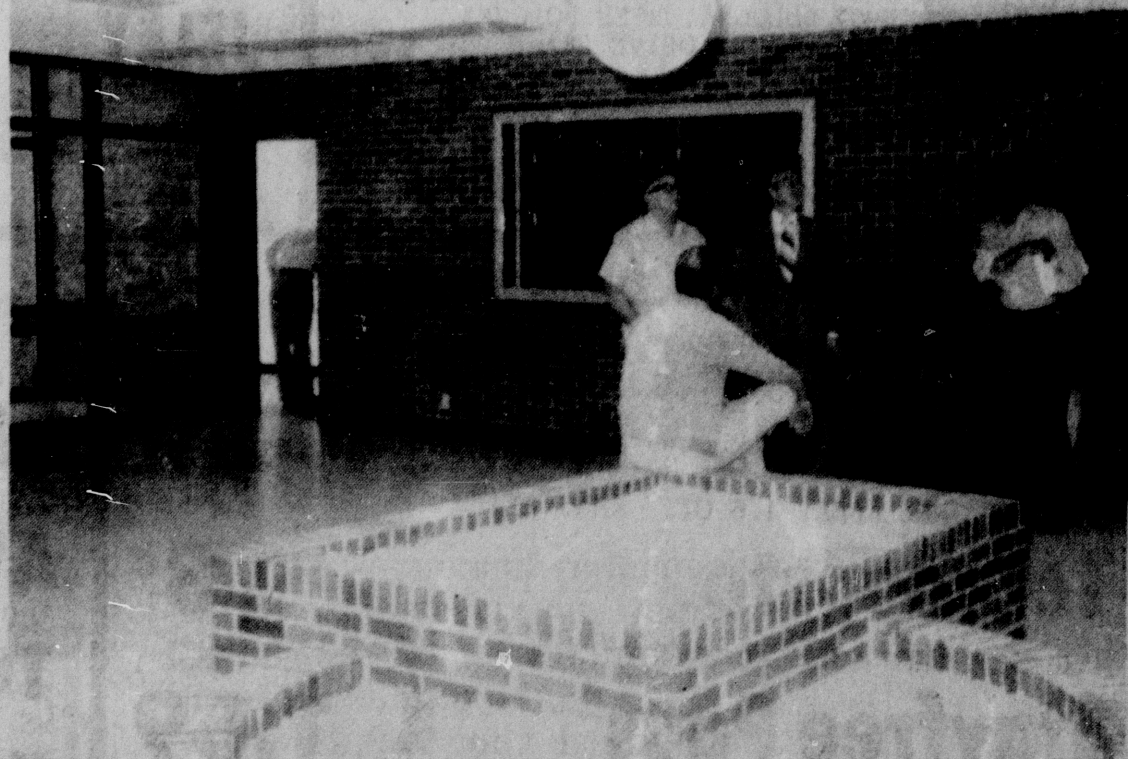

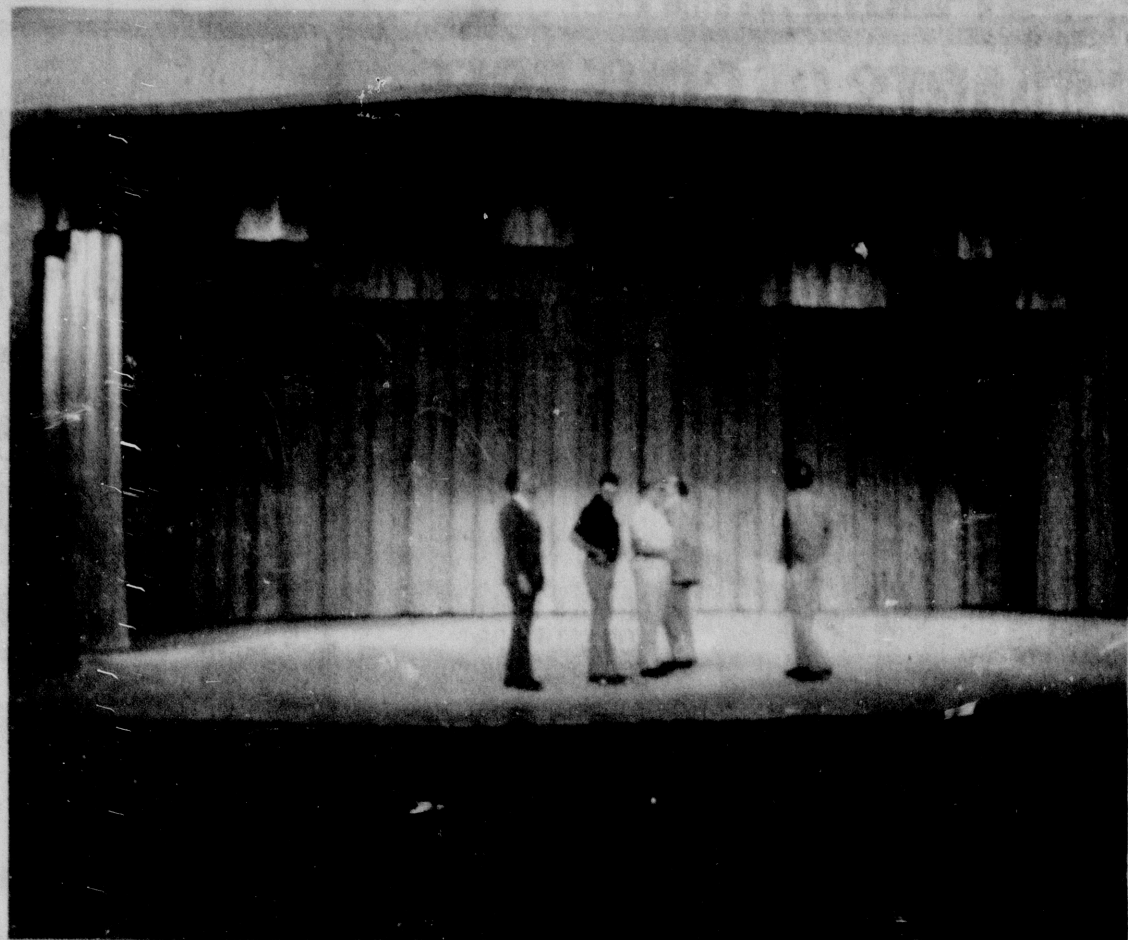

The board made some adjustments in the present building use fees and set new fees for the use of the new auditorium. The fees for the auditorium will be \$25.00 for a minimum of three hours for local civic organizations and \$5.00 an hour for each additional hour. For outside groups sponsored by local civic and church groups the fee will be \$35.00 for the first three hours. For other groups using the auditorium for money raising projects, the fee will be \$100.00 for the first three hours. A fee of \$15.00 a night will be charged for rehearsals.

An approved school employee will be required during the time the auditorium is in use at a minimum of \$15.00 for three hours.

The board voted to review all of the fee schedules again in six months.

In other action the board voted to change the April meeting date from April 11 to April 4.

The board heard a report from three teachers who spent a week in California recently studying a Right to Read program there. The teachers attending the California school and presenting a slide presentation of the school they attended were Mrs. Anne Prewitt, Miss Kay Haynes and Mrs. Kathy Carriker.

**TRUSTEES INSPECT BUILDINGS**—Trustees of the Hamlin Independent School District inspected the new auditorium and middle school buildings here Tuesday before accepting them. Students are expected to move into the middle school Friday afternoon and begin classes Monday. In the top picture they look over the stage in the auditorium with the architect, Tommy Huckabee. In the middle picture they look over one of the classroom areas that can be three classrooms or can open into one large one. The bottom picture was taken in the foyer of the middle school.

# Neinda Philosopher Finds Trying to Raise Your Horizons Doesn't Work Out Well for Him

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One tries to look further afield this week, to not much avail.

Dear editor:  
It is taken as almost the gospel truth that a person should widen his mental horizons, shouldn't pull himself into a narrow circle and ignore what's going on in

the rest of the world, but every time I try it I wind up puzzled and confused.  
For example, take disarmament. Every once in a while Russia and the United States get together to talk about limiting the production of strategic weapons, which I think are guided missiles with multiple warheads that go off in all directions, or something like that. I know they aren't bows and arrows.

The object of this, I think, is to save money and guarantee that in a war one side can't kill more people than the other, a sort of one-bullet, one-person deal, I guess you'd say. You might check this with the Supreme Court. Knowing Russia's ability to sign an agreement with one hand and violate it with the other, and its refusal to let anybody keep tabs on its weapons production, and

recognizing that both the U.S. and the Soviets are going to do everything they can to see that the other one doesn't get ahead, both working on new weapons ideas as fast as they can—knowing this, then it seems to me that a disarmament agreement is like trying to get your opponent in an upcoming prize fight to agree to train less.  
I'm sure I must be wrong about this, but that's what

comes from looking beyond the fences on your own farm. The shape my fences are in, I don't like to look even that far.  
Another thing I can't understand is the controversy over letting the Concorde land in this country. Frenchmen are crying that if it can't land here, they can't sell the big planes, and if they can't sell, it'll be an economic disaster. Americans living

near airports say the things make too much noise, keep them away.  
Have you ever had a helicopter fly low over your house? Do you live near a railroad track? Do big trailer trucks change gears near your home? You ever had a motor boat roar by you while you were fishing quietly from the bank of a lake? How do you suppose a visiting dignitary feels when a 21-gun

THE HAMLIN HERALD, HAMLIN, TEXAS, 79520  
salute goes off behind him? You ever heard one kid scream at another in a small house on a rainy day? You ever been to a political convention?  
Noise is like a popular singer who can't sing. After he yells the first few notes, anything beyond that is now worse.  
People who want to travel from one country to another ought to go quietly by sailing ship, although I've been told that late at night the tall masts make a weird creaking sound.  
J.A.

## FIFTY YEARS AGO (March 18, 1927)

The style show which was held at the Bryant-Link Dry Goods Store Tuesday evening was a decided success from every viewpoint. Mr. Bryant with his efficient corps of assistants had carefully planned every detail of the show and spared neither time nor work to make it a pretty and pleasant affair.

The young ladies modeling for this show were little Misses Lou Sara Randel and Annie Merle Ferguson, Misses Tennie Barnett, Lennie Greenway, Alice Mayberry, Kathlene Mayfield, Roxie and Elsie Weiske, Opal Cory, Gladys Warner and Mrs. Paul Friend.

Two pretty bungalows, one to be the home of Mr. and Mrs. W. C. Gibson, and the other of Mr. and Mrs. Lamar Hayes are now under construction in west Hamlin. These houses are of a pretty design, modern in every respect, and will add much in appearance to this section of the city.

Another attractive home, a six room bungalow is being erected just west of Spencer Lumber Co. by J. A. Childress.

Wednesday, April 6th, is clean-up day in Hamlin according to J. S. Inzer, Chairman of the Civic Committee from the Chamber of Commerce. In a recent meeting plans for the awarding of prizes were discussed and the following prizes will be offered according to the different sections of the city. First and second prizes of \$2.50 and \$1.00 will be given to the boy who has the biggest pile of trash in each section. The awards to be made according to the findings of a special committee of inspection on or soon after the clean-up day. Collect every thing of undesirable nature that you may find on the streets and alleys. Hamlin is going to be a clean town and every boy can help and if you work hard enough, will get good pay for it.

The Tuesday 42 Club met March 8, with Mrs. Billie Bryant. After a number of interesting games of 42 Mrs. Harden held high score for the Club and Mrs. Ezell for the guests.

The first two injections will be given one month apart, and the third injection will be given seven months later at the hospital.

Board of education has ordered a trustee election for April 6, at the high school building for the purpose of electing three school trustees. Terms of LaFoy Patterson, Edward Dodd and Eddie Jay are expiring. Each of the three trustees has consented to have his name placed on the ballots for reelection, it is announced.

# The Knowledge of the Lord

*Habakkuk 2:14. "For the earth shall be filled with the knowledge of the glory of the Lord, as the waters cover the sea."*

The Church is chosen of God to spread the good news that God has a plan to redeem men and reconcile them unto Himself through the vicarious sacrifice of Jesus Christ our Lord. The Church will be so successful in spreading this glorious knowledge in the world that God says the earth will be as full of it as the waters that fill the ocean. Attend church and become a part of this great undertaking.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

The Thirty-eighth Annual Meeting of the Member Owners of Stamford Electric Cooperative, Inc. will be held at the Stamford High School Auditorium Saturday, beginning at 5:00 p.m., with a barbecue, according to M. L. Massey, general manager.

"It is vital that each member of Stamford Electric Cooperative be well informed on all facets of operation of their cooperative. Only through understanding and support of the membership, can SEC continue to supply electrical energy to the rural areas," he continued.

A barbecue dinner will be served from 5:00 to 7:00 p.m. and there will be entertainment from 5:30 until 7:00, when the Business Session begins. Three directors are to be elected during the business session. "A complimentary movie ticket will be provided for the children," concluded Massey.

Legislative Newsletter . . .

By Rep. Elmer Martin  
The pace is quickening around the halls of the State Capitol. Already, a total of 1,350 bills have been filed in the House and 757 bills have been filed in the Senate.

TRANSPORTATION  
I have filed House Bill 1178, relating to the mowing, baling or shredding of certain rights-of-way.

This bill is designed to benefit agricultural property owners, as well as the State Department of Highways and Public Transportation.

According to the provisions of this bill, a district engineer of the State Department of Highways and Public Transportation may, upon request, grant permission to a private citizen to mow, bale or shred the right-of-way of any designated portion of a highway or road that is in the state highway system and is within the district supervised by the engineer.

If the person who requests the authority to mow, bale or shred the right-of-way is not

the owner of the land adjacent to the right-of-way, the district engineer must first provide the landowner the option of mowing or baling the land.

No person may receive compensation for this activity, but he is entitled to use or dispose of the materials produced by the mowing, baling or shredding.

The State of Texas, the Texas Department of Highways and Public Transportation and the district engineer are not liable for any injuries or damages incurred during the performance of services or agreements provided in the act.

SUNSET LAW  
Another major piece of legislation which is on its way to the House is the so-called Sunset Bill, which would require 67 state agencies to justify their existence every eight years or be abolished. This legislation, which has already received the approval of the Senate, would provide for a Joint Com-

mittee of legislators which review the various state agencies and recommend continuation or termination of each agency and suggest the appropriate legislation.

If the Legislature did not approve and the Governor signed a bill providing for the continuation of an agency, the agency would automatically expire on the date specified in the Sunset Bill.

If renewed, an agency would not be interviewed again for eight years, at which time it would go through the same process of accounting for itself.

If abolished, the agency would continue to exist for one year to conclude its business.

MEDICAL SERVICES  
The House has passed on to the Senate a bill by Rep. Lyndon Olson of Waco, which is designed to send more family doctors into the smaller cities and towns of Texas. This bill passed the House by a vote of 110-10.

Under the provisions of this legislation, the Coordinating Board of the Texas College and University System will create 150 new residency training positions for family doctors by the year 1980.

The intent of this bill is to establish residency training programs in the smaller communities which have an urgent need for doctors.

If you have any questions or opinions pertaining to current legislation, please write to me at Box 2910, Capitol Station, Austin, Texas 78769.

Greenbugs don't just happen. They explode! Today you see a few; tomorrow a few thousand.

That's why we recommend 120-miles-per-hour aerial treatment of your wheat or grain sorghum early!

Early control means less plant damage, more grain at harvest time! And aerial application also:

- Meets critical time schedules
- Reduces labor requirements
- Eliminates soil compaction
- Treats land where ground spray rigs can't travel
- Doesn't damage growing crops
- Provides effective treatment with less chemical
